THIS IS UNEVALUATED INFORMATION 25X1

The Schwermaschinenbau Meuselwitz produced one heavy milling cutter, two planing machines, and one radial boring machine in September 1953. A lead-screw chuck lathe for the Kapen ammunition depot will leave the plant early in October. Two turret lathes have been delivered to this depot since August, as well as a number of swiveling lathe heads. Completion of these machines was delayed by the Leipzig Fair and they were only delivered in September.
